Gres Fine Porcellanato

★★★★★
MONOCIBEC®
FINCIBEC GROUP

Prodotta all'insegna del design più attuale, Nextra, offre un'ampia gamma di formati. La varietà dei propri colori la trasformano in un elemento d'arredo perfetto per personalizzare loft e spazi residenziali dal gusto contemporaneo.

Il gres fine porcellanato a massa colorata rappresenta la più avanzata espressione qualitativa dei prodotti ceramici per pavimenti. Viene ottenuto attraverso la miscelazione di argille pregiate, di feldspati, quarzi ed altre sostanze naturali raffinate ed omogeneizzate attraverso atomizzazione. L'alta qualità delle materie prime, la forgiatura mediante presse ad alto tonnellaggio e la cottura ad elevatissima temperatura consentono di ottenere lastre di eccezionale resistenza e compattezza, idonee agli impieghi più severi.

Nextra is inspired by the trendiest design and offers a wide range of sizes. The range of colours makes it a perfect furnishing element to customise residential spaces and lofts with a contemporary taste.

The fine porcelain stoneware with coloured body represents the most advanced quality expression of floor ceramic products. It is obtained through mixing precious clays, feldspars, quartz and other natural substances refined and homogenized through spray-drying. The high quality of the raw materials, the shaping by high tonnage presses and the firing at extremely high temperatures enable to obtain exceptionally resistant and compact slabs, suitable for the most demanding applications.
